Change #1

On page 14, Table 2, change the following:

From: Auto sets the threshold to the default value of 0.15 dB.

To: Auto sets the threshold to the default value of 0.10 dB for multimode and 0.15 dB for singlemode.

From: If the loss threshold is set to less than 0.15 dB, the tester may find many false events due to inherent imperfections in the fiber."

To: If the loss threshold is set below the default value, the tester may find many false events due to inherent imperfections in the fiber."
